THE EVOLUTION OF CLEAN

## INTRODUCING WASHLET

Everything in life evolves. Including the concept of clean. What is clean? What's the most effective way of cleaning ourselves? Introducing the Washlet. Innovative. Luxurious. The bathroom accessory that turns your bathroom into an oasis of serenity and comfort. The Washlet uses water. Nature's most gentle and essential element. Purifying. Relaxing. Quite simply, the epitome of clean. The evolution of clean.

Washlets are the next generation of toilet fixtures from TOTO, the world's leading manufacturer of cutting-edge bathroom products and technology. TOTO is dedicated to the art of creating sophisticated, high-performance products that are as exceptional as they are comfortable. The Washlet is clear proof of TOTO's relentless pursuit of excellence.

For maximum comfort, your Washlet uses a streamlined wand that extends to provide a soothing warm flow of aerated water for complete cleansing. What's more, the Washlet offers a wide array of innovative features. There's a soothing warm air dryer. For additional comfort, a heated seat. We even took your olfactory senses into consideration by including an air purifier. And the nozzle automatically self cleans before and after each use. Of course, Washlets are designed for both men and women of all ages.

We cordially invite those who haven't experienced the unprecedented level of pleasure one derives from the Washlet to visit one of the fine stores that carry TOTO's complete line of beautiful, innovative products. Or visit us at [www.washlet.com](http://www.washlet.com).

**After all, now that cleaning is evolving, shouldn't you catch up to it?**
